INDUSTRIAL VISIT TO WASHISHTI DAIRY FARM

FACULTY OF MCA

On 9th December 2024, the MCA Department's Training and Placement Cell organized an industrial visit to Washisht Dairy Farm, Dapoli, to provide students with practical exposure to industrial practices. Forty students and four faculty members participated in the visit. The group departed from Yashoda Campus at 5:30 AM and reached Dapoli at 10:30 AM, brimming with enthusiasm.

The visit aimed to familiarize students with the functioning and management of a large-scale dairy farm. The Washisht Dairy team delivered an insightful session on operations, covering milk production, quality control, storage, and distribution. Students observed advanced techniques like automated milking machines, modern cattle care, and eco-friendly practices.

Particularly relevant to the students' IT background was the integration of technology in farming, showcasing innovations in enhancing efficiency and streamlining supply chain processes. Discussions highlighted the importance of supply chain management in delivering dairy products to consumers. Students actively engaged, asking questions about challenges and the solutions adopted in the dairy industry.

The visit bridged the gap between classroom learning and practical application, offering valuable insights into industrial processes and innovation. Students appreciated the effort of the farm staff and faculty organizers for this enriching experience.

Key Takeaways:

- Insight into modern dairy farming practices and technological integration.
- Understanding the role of supply chain management in product delivery.
- Real-world exposure to problem-solving and innovation.

The visit was an impactful learning opportunity, fostering curiosity and inspiring students to explore the application of IT in traditional industries.

NATIONAL LEVEL SHORT-TERM TRAINING PROGRAM: JAVA FULL STACK

WITH REACT JS AND AI FACULTY OF MCA

Yashoda Technical Campus proudly served as the host college for the National Level Short-Term Training Program on Java Full Stack with React JS and Artificial Intelligence. Organized in collaboration with Brainovision Solutions India Pvt. Ltd. and AICTE, the program was conducted from 2nd December to 22nd December 2024. This initiative aimed to enhance participants' technical skills and bridge the gap between academic knowledge and industry requirements.

The training sessions featured eminent speakers and industry experts who shared their insights and expertise on Java Full Stack development, React JS, and the transformative potential of AI. The program was designed to provide a comprehensive understanding of full-stack development tools and frameworks, focusing on practical applications and i

nnovative approaches.

Students actively participated in hands-on sessions and discussions, gaining valuable knowledge in creating dynamic web applications, integrating AI technologies, and implementing cutting-edge solutions. This program offered a unique opportunity to learn from professionals and explore real-world use cases, enhancing both technical and analytical abilities.

Upon completion of the training, students were awarded Participation Certificates in recognition of their dedication and efforts. Faculty Coordinators and Yashoda Technical Campus received Appreciation Certificates for their pivotal role in organizing the event and ensuring its success.

The training program was highly impactful, equipping students with in-demand technical skills and fostering a deeper understanding of the latest trends in technology. It was a commendable initiative, reflecting Yashoda Technical Campus's commitment to academic excellence and professional growth.
